What are 20 things you would like to accomplish over the next 10 years? This exercise is designed to really get you thinking about what matters to you. Be realistic but don't procrastinate. Far too many of us believe we have an unlimited amount of time to get things done. We don't. Attach a complete by date to each item and I encourage you to give yourself a 10-year completion window. You can always start a new list once you have completed this one.
